**LOT 29 - L'Core Paris' Tropical Body Butter**

### **Description**

L'Core Paris' Tropical Body Butter, you can lock in moisture and feel rejuvenated with its powerful ingredients. Rich in Cacao Seed Butter, this silky Body Butter will deeply nourish and hydrate your skin, for a smooth and healthy look and feel. This is a daily-use, non-greasy, and quick-absorbing body butter. It provides essential skin nourishment as it moisturizes and softens. This lightly moisturizing product is

fragranced with sophisticated cacao seed butter top notes with a harmony of Theobroma and a beeswax undertone. Theobroma cacao seed butter makes an excellent skin moisturizer with healing effects inside and out. It's a natural source of antioxidants found in cocoa beans. Along with its saturated fats, this can treat dry, cracked skin. When applied to the skin, beeswax can form a protection layer from the outside dander. This can also hold in moisture and reduce dryness, which is why this ingredient is often associated with lip balms.
